Editors Louiseille Courier: Saturday was apparently the most gloomy day! have witnessed since my arrival at the Capitol.—
The speeches delivered in debate on the Military Bill, and the votes on referring it back to the Committee baye led your not be mistaken—that no assault was made on the troops-that no missiles were thrown nor shots fired at the troops. It was a base, cowardly, unprovoked attack on nnarmed and defenseless men, wo-Military Bill, and the votes on referring it back to the Committee, have led many to believe that it would be deleated, and a less efficient one adopted in its stead. The eatimates in it were made by Major-General Buckner during the conference, and were supposed by him to be as limited as possible, and at the same time furnish such protection and defense to the State as exigencies might require. I am inclined myself to think that the amount proposed (\$6 000,000) is too large, belleving that it were more judicious to appropriate a smaller amount now, and again more hereafter when actual necessity should require it. Col. Machen, the able Chairman of the Committee, has already surrendered clarge of the Bill into the hauds of Judge Undergood. men, and children, in strict keeping with, and scarcely equalled in infamous and shameless acrocity and wickedness by, the previous conduct of these minions of the Administration. The bill which the Judge will likely report, under the instructions voted by the House on Saturday, in my opinion, will be liable to very serious objections. In the first place, it will make no provisious for the instruction and training for the officers and privates.—Of what avail would begions of shell raw troops be, without project training, when two hy the surrender of the North or South? With all their conrage and gallantry, I fear they PLAIN STATEMENT OF FACTS AS TO THE FURING ON A UROWD OF CITIZENS NEAR CAMP JACKSON.

We were standing on Olive street, immediately in the rear of the company who commenced the firing. They were facing towards the south side of Olive, and were formed in ranks two deep. There was a dense crowd of citizens—men, women, and children—lining the south side of Olive street, and back on a slight rise in "Lindeil's Grove." The crowd had been abusing the soldiers—cursing and hurrahing for Jeff, Davis—hut had not thrown a stone nor fired a shot at the soldiers. They had been assailed with nothing wowe than words. The passage of the bill was aldy and carnestly advocated by Senators Whitaker, Read, and Cissel. Messrs. Fisk, Simpson, Chambers, Taylor, and Andrews opposing its passage. This is a just and righteous measure. The people demand it, and I was pleased to witness the zeal and ability which was manifested by Senators favoring the passage of this bld. Yestesday was another day of extraordinary excitement in this city. A more intense state of public feeling has never before existed in St. Louis. During Friday night comparative quiet prevailed upon the streets, owing to the precautions of our efficient Metropolltan Police, and hy 10 or 11 o'clock the commotion consequent upon the stirring events of the day had measurably subsided. The more peaceably disposed of the population retired early to their dwelfings, but not all to sleep. Great alarm was manifested in every quarter lest an outbreak might occur, the effects of which would be to involve the whole city in destruction. In the wild rush of passion there was danger felt of connibes collisions between opposing forces, but held; your eventual destruction in the sixty. Westerney Yestesday was another day of extraordldons between opposing forces, but lucki-uone occurred during the night. With ly none occurred during the night. What this morning, however, the commodor again arose throughout the city, and at manually early hour the streets were throughout that the arranged with agitated multitudes carryase in the occurrences of the preeding afterman.

Business was almost entirely suspended and the community seemed profoundly cenetrated with a great grief. A proclamation was promptly issued by Mayor Taysor, requesting the proprietors of drinking aloons, restaurants, &c., to close their establishments during the continuance of the resentment. This request was cheerally obeyed, and the other measures proposed by the Mayor for keeping the peace equiesced in by the manimons consent of good citizens. Nevertheless It was ino the capture of the bearet of check the initiated of feeling of excitement in relation of the capture of the State troops and the acceeding lamentable transactions. Schuttner's command, and the regulars under Capt. Sweeting, took up their quarters in Camp Jackson. The camp was vacated yesterday norming, and the tents and military equipments were removed to the Arsenal. During the march to the Arsenal, the brigade was subjected to all sorts of insults. There was a great deal of derisive shouting in a foreign tongue. The prisoners were greeted in their passage by cheers for Capt. Lyon, cheers for Col. This is a specimen of the "anumatity" and "kindness" with which the Missomi Volunteer Militia were to be treated in ease they surrendered Camp Jackston. The officers were not permitted to see or hold any sort of communication with their men, until just before leaving their prison houses last evening. The etheers' quarters were more adequate in room to the unmber of per ons to be accommodated, but they were singulated with no convenlences—neither furniture nor bedding. General Frost and all the officers were obliged to sleep on the floor, with their boots for pillows. They wisl, however, to express their obligations to individual United States officers statloued at the Arsenal, for great courtesy and kindness. As individuals they did all in their power to render the condition of the officers of the Brigade as confortable as possible. A sentinel was stationed at the door the officers' quarters. TESTERDAT'S TRAGEDIES.

Another act in the terrible drama of blood that opened so fearfully on Friday, was enacted last evening, and six more ictims were added to the already sad list of the dead. CAPT. LYON'S STITEMENT.

The following statement of the firing at Camp. Jackson, which statement is authorized by Capt. Lyon, we are lurnished in a slip kindly sent us from the Democrat.—We are quite sure that Capt. L. has been misinformed in some particulars. Two or three parts of the narrative seem to us rather remarkable, but on the whole the document is not an extraordinary one—considering the letter he sent to Gen. Frost: "to first firing was some half-dozen shots near the head of the column composed of the First Regiment, which was guarding the prisoners. It occurred in this wise: The Artillery were stationed on the blind northeast of Camp Jackson, with their pieces bearing on the camp. At this they fired, but not more than six shots, which were sufficient to disperse that portion of the mob. How many were killed by this fire is not known. None of the First Regiment (Col. Blair's) fired, although continually and shamefully abused by both prisoners and the mob.

The sad results are much to be lamented. The killing of innecent men, women and children, is deplorable. There was no intention to fire upon peaceable citizens. The regular troops were over in the Camp, beyond the taoh, and in range of the tring. The troops that ilested every forbearance, and at last discharged their gans, simply obeying the impulse, natural to us all, if settalcience. If innocent men, women and children, whose curiosity placed them in a dangerous position, suffered with the guilty, it is no hait of the troops.

I learn from the Captain of one of these vessels, that mest of them have been engaged in transportation of troops. They are all well monuted with cannon and manned with crews of armed men, equal to any emergency.

The steamers lying off the wharf at Old Point, are the Harriet Lane, which reached there at five o'clock on Friday evening; the Montloello, Live Yankee, Pawnoc and flagship Cumberland, in command of Commodoto Pendergast. This distinguished statesman of Virginia arrived in our city on Wednesday night, and stopped at the Washington Hall. On yesterday morning, just before the train left for Montgomery, in response to the calls of a large crowd of our citizens, he appeared in the porch of the Hall, and made a brief and cheering address.

He said he had been induced to appear before them for a few monents, as a representative of the Virginia, to exchange greetoms with the noble som of the Empire State of the South. violent in its dennnelations of Tennessee. It can't find anything to complain of in the unconstitutional acts of the Lincoln of Louisville as the sure receptacle of Administration; it can't find anything to Southern trade and Southern wealth. With | call out its bitterest curses in the murder Kentucky linked politically as well as of innocent women and unoffending men in geographically with the South, Louisville | the streets of Baltimore and of St. Louis would stand unrivalled, while Cincinnati by the mob the Administration has organ would reap the whirlwind of LINCOLN's | ized and armed for the purpose of subju lawless despotism. She interferred with gating the Slave States; it saw nothing our shipping. She insulted our chizens. wrong or at all improper in the gathering the longed to ace our trade crippled with of armed men at Washington during the the South, while she knew it was destroy- last session of Congress to everawe and intimidate Southern Representatives and At length Lincoln has blockaded our Senators; it has not denonneed the mol harbors, has taken possession of a moble rule that prevalls throughout the Fre river, and has had the andacity to attempt | States to the serious injury, inconven to take possession of the property of our lience, and loss of Southern citizens tem porarily in those States; it is evidently

pleased with the unlawful and indefensible attack made on the State Guard of Missou ri by "the United States troops and Union volunteers" on Friday night last; the occu pancy of Cairo by thousands of Aitolition soldiers menacing our commerce and whole trade of Kentneky is attempted to portion of our State, and the interruption be entirely cut off, and our commonwealth of the legitimate trade and business of our ruinously beggared. We notice now in city, have rather gratified it than otherwise; brief the character and amount of that but the Legislature of Tennessee has ronsed its ire, and the conduct of the peo ple of Tennesces provokes its most violen

It has as many particulars of cupression a failure of corp-there were packed at and violence and wrongdoing in Tenncesee Louisville 252,000 head, and 75,000 at oth- as it had of similar acts in Mississippi and er places in the State. Estimating that 50,- Louisiana, and they are quite as reliable in this case as they were in the other.

What right, if its charges against the peo a market in Louisville, and we have ple of Tennessee were really true, as the are not, has it to complein of them? lissn't it threatened the Logislature with and violence if they should dare to disre gard the wishes of a little knot of conspi rators who have determined to tie Ken neky on as a caudal appendage to the Free

States?
Hasn't it threatened civil wor if the pec ple of Kentucky should determine, as the have determined, to go with the other Slave Slates?

And why should it complain, wrong though it would be, if its friends, traitors like Andr Johnson, should be treated as t would treat others?

The secret, however, of the peculiar bit, terness of the Journal in this case is apparent in the following lines, taken from its leading article of yesterday:

As for the Tennesses press, excepting the coval and heroic Brownlow, the best portion of it is dumb, and the rest applands. We ave seen editors escaping from that State ccause they could not stay and speak their because they could not stay and speak their minds without the sacrifice of their lives, [who were they dear Journal?] and the circulation of papers from abroad that boildy speak the truth is prohibited. Even in Nashville, where the Louisville Journal has for years had thousands and thousands of years had thousands and thus been recently interdicted and banned by an unvestited nob, though Heaven and mankind can bear us without the stay in the sacrification in the sacrification of the sacr ir us witness that it was never cond and the right than it is at this day.

A Letter from Indiana-Mottoes for We have received a letter from Indianafrom one of Lincoln's soldiers at Camp Wallach-from "a native Kentuckian !" At the head of the letter sheet on which t is written floate the "stars and stripes"-

the United States flag; and from that we know the writer is patriotic. That flag has a motto on it, of which we had heard before, but had not seen. That motto is "DEATH TO TRAITORS." And from that we judge of the intensity of the patriotism of Thomas W. FRY, "a native

Kentneklan." By the same meil that brought the letter we received a newspaper printed in New York, with a flag at the head of ite col-

Preparations are being completed for effectively blockading Virginia waters.

Captain Pendergast has given notice of filteen days, for all vessels to leave the ports of that State, with or without cargo, and several foregue cargos, and several foreign Ministers, and some Americaus, have assed for an extension of time, but in every case have been refused. The order will be adhered to imperatively.

Persons, though representing themselves to be Union men, are denied the privilege of forwarding locometives to Temessee for the reason, among others, that such machinery might be used in transporting hostile troops. The Governmentalso takes eare that coal for steam purposes shall not be transported to disloyal States.

In addition to the national vessels, about twenty armed steamers from New York, Baltinoure and Philadelphia, have been or are being put in readiness for blockading. Arkansas Troops Arrive at Memphis

From St. Louis. St. Louis, May 13.—An official state-ment published this morning says the first firing at Camp Juckson, on Friday evening, was some half-dezen shots near the head of the column of the First regiment, occasioned by a volley of stones and pistol shots from the crowd, no one being hurt. At this point the second firing ocentred from the rear of the col-ning guarding the prisoners. The crowd here was large, very abusive and one man discharged three barrels of a revolver at Lientenant Saxon, of the regular service discharged three burrels of a revolver at Lientenaut Saxon, of the regular service, many of the mob cheering him and drawing revolvers and firing at the troops. The man who commenced the attack then laid his pistol across his arm, and was taking deliherate aim at Lieutenaut Saxon, when he was thrust through by a hayonet and lired upon at the same time and instantly killed.

The column then moved on having re-

lired upon at the same time and instantly killed.

The column then moved on having reveived orders to march, and the rear campany being assanlted by the crowd, and several of them shot, halted and fired, causing deaths as already reported. The order was then given by Captain Lyon to cease firing, which was promptly obeyed.

The principal arms taken from Camp Jackson were four large selge howitzers, two ten-inch mortars, a large number of ten-inch shells ready charged, some five thousand United States muskets, supposed to be a portion of those taken from Baton Rouge Arsenal.

Thousands of people left the city yesterday in consequence of reports of incubordination among the German troops and their threats to burn and sack the city, but the appearance of Harney's proclamation in a great measure restored contidence, and many of those who left will probably return to-day. The city is now quiet and the highest hopes are entertained that no further disturtance will occur.

Twenty-two persons are known to be killed at Camp Jackson.

Commencing with to-day, all bonts pass g St. Louis will be stopped, and neither ravisions nor munitions of war for the provisions nor munitions of war for the second States will be allowed to pass.

The report in the city Saturday and yesterday that Gen. Harney disapproved of the action of Capt. Lyon in reference to the capture of Camp Jackson is anthorizally elydenical. Harney not only approves the whole proceeding, but compliments that officer for the prompt and admirable manner in which he executed the orders of the Government.
